MobileBoards
Overview

MobileBoards is the ultimate toolset to access any key business metric from the convenience of your iPhone, iPad, or Android device. Create, view, and share dashboards of information to assist in helping you make critical business decisions. From sales, inventory, and marketing figures to cash and accounting analysis, reporting panels can be easily added from built-in compatible database components (i.e. QuickBooks, Microsoft Dynamics GP), or you can pull your own metrics with our SQL plug-in.

Product Features

Mobile Metrics

- Sales Reporting
- Executive Management
- Deposit
- Accounts Payable
- Accounts Receivable
- Daily, Weekly, Monthly, Yearly
- Custom Reporting (SQL)

Desktop Application
