

Recurring Contract Billing

Take control of your billing processes

Recurring Contract Billing helps organizations manage customer contracts to automate the creation of quotes, orders and invoices. Each contract can be created in either the functional or originating currency. Users can speed up contract entry by using **Recurring Contract Billing Importer** to create or update contracts.

- The contract amount fields will display with the appropriate currency symbol of the currency selected on the **General Tab** in the **Recurring Contract Entry** window.
- **Recurring Contract Billing** supports multicurrency functionality. The currency of the contract will default from the **Receivables Management Customer Card**. If an alternate currency is selected all amounts will be displayed with the appropriate currency symbol.

Solutions for Microsoft Dynamics GP

Recurring Contract Billing

Take control of your billing processes

Scalable - manage growth and multiple cycles efficiently.

- Integrate with Microsoft Dynamics GP **Electronic Funds Transfer (EFT) for Receivables** or fully integrated credit card applications.
- If invoices, quotes or orders are deleted or voided within **Sales Order Processing** you have the option to Rollback the contract to it's original state.

Automate repetitive billing procedures.

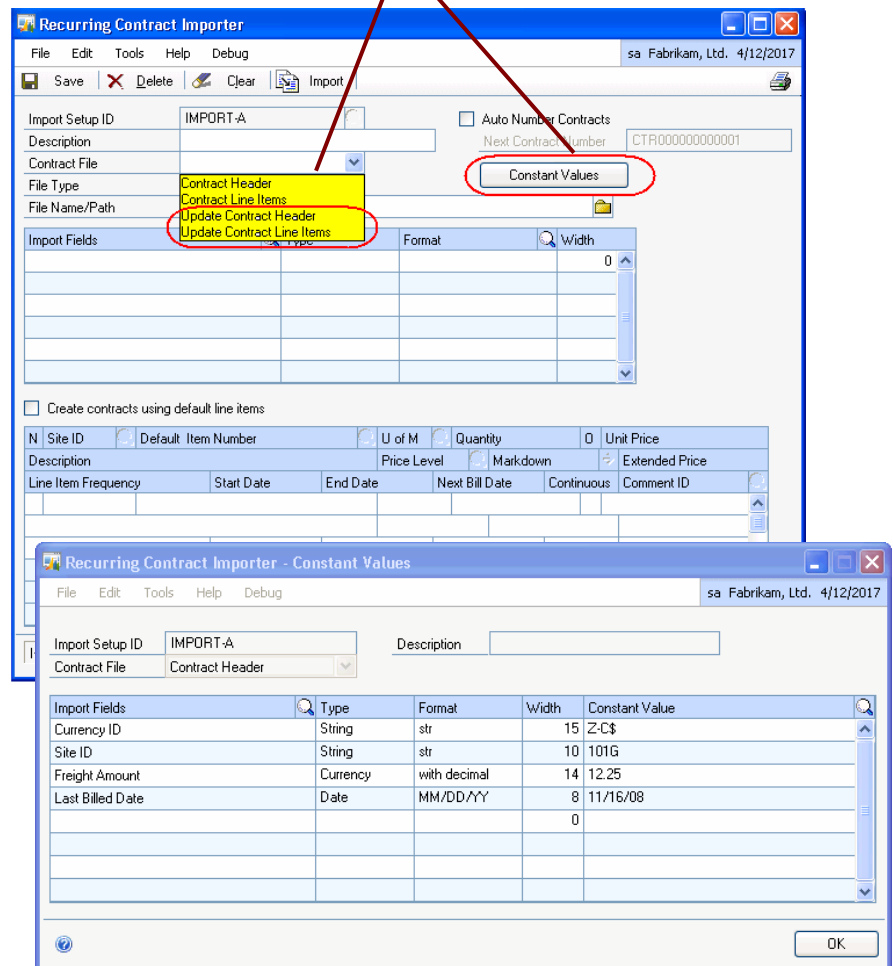

- Enter inventory and non-inventory items and specify at the line item level when the contract will start billing, how often it is to be billed (i.e. monthly, annually) and when the contract will expire.
- Print legal contracts ready for customer acceptance of services and fees.
- Create quotes, orders and invoices in **Sales Order Processing**.

Manage your cyclical billing processes.

- Monitor contract expiry dates to proactively negotiate contract renewals.
- Recognize revenue evenly over a predefined period using the **Deferral Profile** functionality.

Recurring Contract Billing Importer:

- Create new contracts.
- Update the **Contract Headers and Line Items** with **Recurring Contract Billing Importer**.
