MOBILE MODULE

ReQlogic Mobile

ReQlogic Mobile allows web enabled devices such as smart phones and PDAs access to ReQlogic. Using a mobile device, employees are able to track the status of their transactions. This module also enables reviewers to take review actions such as approve or reject, including the ability to enter comments.

Benefits

- Ensure timely processing of transactions
- Ability to approve or reject transactions when you are away from the office
- Enable employees to process time and expense transactions
- Alleviate the need to select a delegate in your absence
- Stay up-to-date on purchase requests
- Add to the increased productivity ReQlogic already gives you

"I haven't run into another software program yet that is as easy to use as ReQlogic. It is fast, easy, intuitive and user friendly, oh and by the way it is also a time saver – and I love it!"

Kim Keller,
**Client Care Manager**
The TM Group, Inc.

Harness the power of ReQlogic

Did you know 60% or more of your expenditure could be more effectively managed? For many businesses, requisitions, invoices, purchasing and employee-related expense processes create communication gaps and black-hole spending that significantly impact time and budgets.

Empower your Microsoft Dynamics ERP with ReQlogic, a web-based eProcurement, requisition, invoicing, time tracking and expense solution that will drive efficiency and help you take control of costs!

- Analytical accounting integration
- Service call integration
- WennSoft integration
- Encore project integration
- Olympic job cost integration
- Red Chair project integration
- Binary stream integration
- Workforce ROI integration
- KwikTag integration
- Image link integration

"We love ReQlogic for its great integration with Dynamics GP. It gives us a great level of comfort when it comes to data accuracy. We also like its light footprint and deployment over Intranet and Extranet, which is a good match for new technologies like Dynamics GP Web client. Users get access to functionality wherever they are!"

Shaun Kong Ting, Technical Application Consultant, J.P. Marshall Associates Co. Ltd.
